Our Commitment to the Environment

We are committed to making environmental and socially responsible decisions in all aspects of our event and catering services. Our sustainable menu strives to reduce waste, source locally, produce in-house dishes and always creating fresh and delicious food for your event.

By choosing this menu, you are selecting the most environmentally friendly menu option whilst never compromising on the quality.

We will ensure that the menu served is suited to your seating arrangement and meets as many dietary needs as possible. Please provide your dietary requirements in advance and we will ensure they are catered for on the day of your event.

We

- Use recyclable water bottles.
- Use recyclable napkins.
- Recycle our cooking oil.
- Design menus that are adaptable to seasonal changes.
- Are conscious of portion size and food waste.
- In-house production of as many food elements as possible.
- Limit meat options and increase the portion of vegetarian and vegan options.
- Have organic wine options available.

*Please note: Each serving of tea and coffee is based on one per person. If numbers are exceeded, additional charges will apply. Menus are subject to change.
